Ms. Phyllis Weaver, Health Physics/Project Leader
Environmental Survey and Site Assessment Program
Oak Ridge Institute for Science and Education
P.O. Box 117
Oak Ridge, Tennessee 37831-0117

Dear Ms. Weaver:

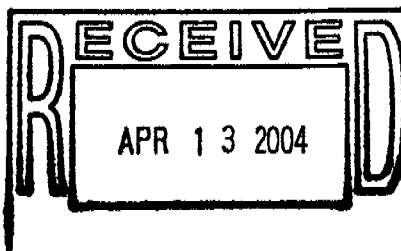

This letter is in response to your March 31, 2004, letter, which delivered the final Independent Verification Team Project Specific Plan (IVPSP) for the Building 776/777 Closure Project in accordance with Contract No. DE-AC05-00OR22750. The IVPSP is approved by the Rocky Flats Project Office (RFPO) for performance of the Independent Verification of the Building 776/777 Closure's pre-demolition final survey methodology.

Copies of the ORISE IVPSP and the ORISE Independent Verification Program Plan are being provided to the Building 776/777 Closure Project for information. Based on current project progress, the IV Team's activities are planned to begin during the last week of April 2004, and continue concurrently with the project's characterization activities. Please coordinate and work with the project through Terry Vaughn, Building 776/777 Radiological Safety Manager at (303) 966-6357, to conduct the in-process inspections and surveys during the contractor's survey activities in order to expedite the decontamination and decommissioning process. Please arrange your initial walk-down of the project with Gary Schuetz, U.S. Department of Energy RFPO at (303) 966-3016, and provide weekly summary progress reports when activities are being conducted.

The safe removal of Building 776/777 will be one of the most significant activities in the closure of the Rocky Flats Environmental Technology Site. Your support and timely feedback during the Building 776/777 IV are greatly appreciated and if you have any questions, please contact Gary Schuetz or me at (303) 966-2282.

Sincerely,

Joseph A. Legare, Director
RFPO Project Management Division
